Rohit Bhatt
FULL STACK WEB DEVELOPER
rbhatt199924@gmail.com | GitHub | LinkedIn | Medium | Portfolio

SUMMARY

Certified Full Stack Web Developer, equipped with a Computer Science background and 2+ years of experience developing and deploying over 30+ projects, showcasing proficiency in creating dynamic web applications. Specialized in Ruby on Rails, React, and JavaScript with a talent for quickly mastering new technologies. Excel in collaborative environments, leveraging strong communication and remote work skills. Bring valuable expertise to any software engineering team with a track record of delivering high-quality code.

SKILLS

Front-End: JavaScript, React, Redux, Next.js, HTML5, CSS3, Bootstrap, Tailwind
Back-End: Ruby on Rails, MySQL, Postgres, Java, Python, Node.js
Tools & Methods: Git, GitHub, AWS, Capistrano, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools
Professional: Remote Pair-Programming, Problem-Solving, Teamwork, Leadership, Mentoring

EXPERIENCE

YOUR-SPACE   Delhi, India
Ruby on Rails Developer   October 2023 - Present

- Designed and built a scalable relational database system to fulfill the company's business logic, optimizing query performance to meet the demands of our diverse user base.
- Engineered a powerful backend central server using Ruby on Rails, providing a solid foundation for our entire ecosystem of applications. This backend served as the backbone for our mobile app, website, and CRM systems, facilitating smooth communication and data exchange across platforms.
- Successfully deployed the Ruby on Rails backend to Amazon Web Services (AWS) servers using Capistrano, leveraging the flexibility and scalability of AWS infrastructure.
- Contributed to the development of server-side rendered websites using Next.js, creating dynamic and interactive web interfaces that provided a seamless browsing experience for our users.
- Set up Metabase for comprehensive reporting and analytics, empowering management with valuable insights into business performance. Crafted SQL queries to extract and analyze data, which can aid in decision-making and strategic planning.

PEEPOYE NETWORK   Remote
Full Stack Web Developer   June 2023 – October 2023

- Created an opinion trading platform with a custom CMS featuring user authentication and live vote counts using Ruby on Rails and React.
- Migrated the official website from WordPress to Next.js, resulting in an 80% faster page load time.
- Reduced the bounce rate by 50% by enhancing the website's user experience.
- Increased the website's daily traffic to 10k users through SEO optimization.

MICROVERSE   Remote
Code Reviewer   November 2022 – June 2023

- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

HUAWEI TECHNOLOGIES   Gurgaon, India
Design Engineer   February 2021 – October 2022
- Achieved 2 Star Bean Awards for consistent 96% customer satisfaction over two consecutive quarters.
- Led a 21-member team for a project and successfully completed it, receiving a client appreciation letter.

EDUCATION

MICROVERSE   October 2022 – June 2023
Remote Full Stack Web Development Program, Full Time
- Dedicated over 1300+ hours to mastering algorithms, data structures, and full-stack development from the outset. Concurrently engaged in project development utilizing Ruby, Rails, JavaScript, React, and Redux.
- Acquired expertise in remote pair programming using GitHub, industry-standard git-flow, and daily standups for effective communication and collaboration with remote developers across international locations.

CHANDIGARH UNIVERSITY
Bachelor in Computer Application   July 2021 – July 2024
- Learned the fundamentals of computer science, including programming languages like C, Java, and Python.
- Studied computer science concepts such as data structures, algorithms, software engineering, and computer architecture, which enhanced understanding of the inner workings of computer systems.
